January 2025

A warm sweater, a listening ear, a moment of courage—small acts, big impact. In January, Snehdhara wrapped schoolchildren in warmth, ignited creativity through drawing books, and empowered young girls with #UnstoppableConfidence. At the Earth Savivors Foundation, we discovered that time is the greatest gift. Each effort, a ripple. Each smile, a victory. Together, we're building a world where kindness knows no limits.

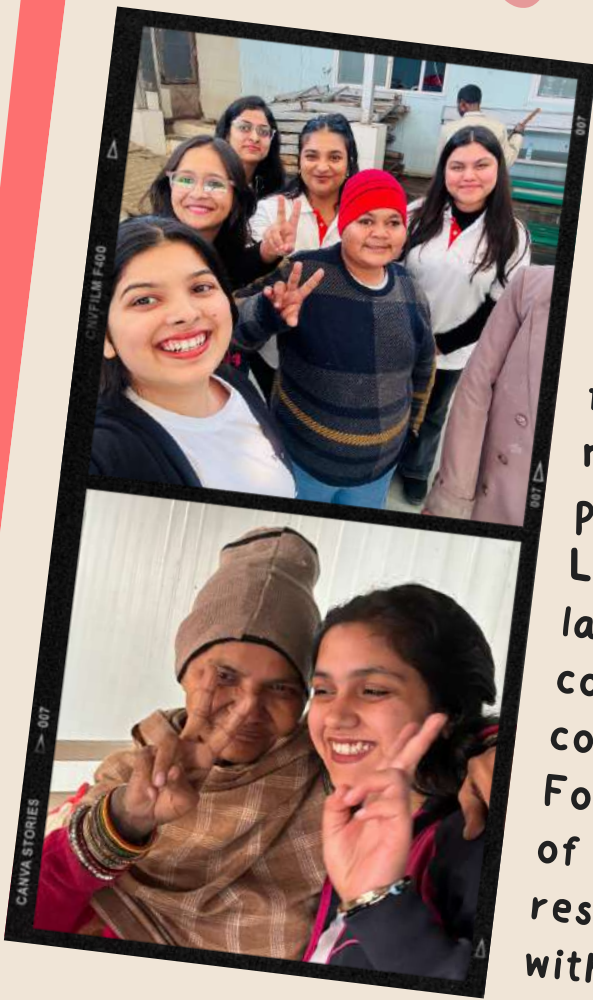

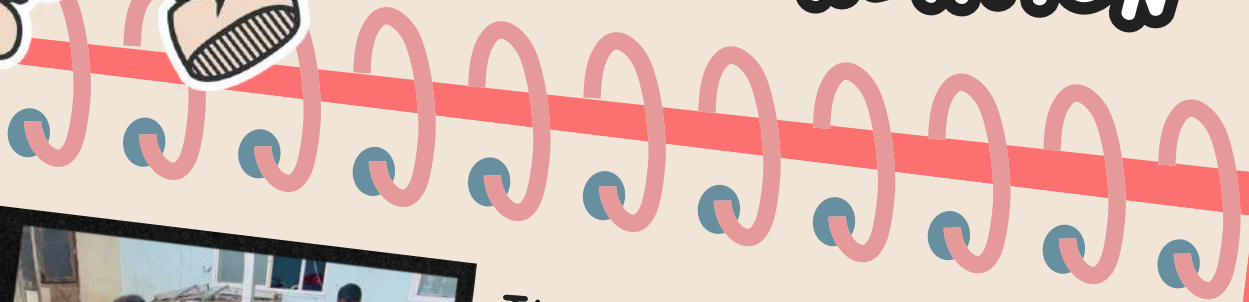

Compassion isn't just about giving; it's about transforming lives. This January, Snehdhara reached hearts and homes—nurturing dreams, spreading warmth, and empowering voices.

Together, we are turning moments of kindness into a movement of change.

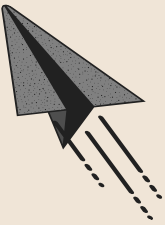

Join us in making every season one of giving.

SPREADING JOY AT THE EARTH SAVIORS FOUNDATION

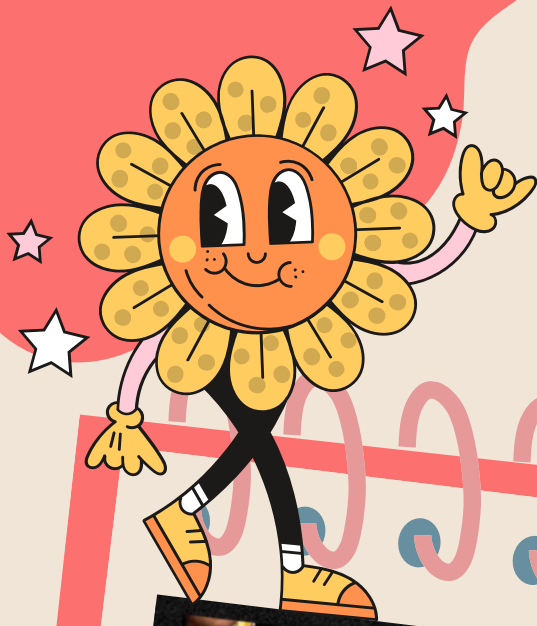

The festive season is about warmth and togetherness, and Snehdhara brought that spirit to the Earth Saviors Foundation. Our volunteers distributed festive treats like laddoos and namkeen, but their time and presence meant the most. Listening to stories, sharing laughter, and offering companionship created deep connections. For many, it was a rare moment of belonging. Volunteers noted residents' wishes and returned with thoughtful gifts,

strengthening these bonds. The NGO staff reminded us that the greatest gift is presence. Snehdhara remains committed to ensuring no one feels forgotten—because simple acts create lasting impact.

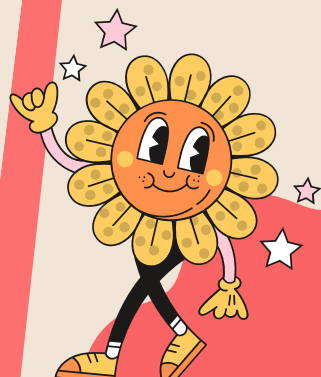

REDUCE RECYCLE REDISTRIBUTE

Snehdhara's Cloth Distribution Drive is more than just providing clothing- it's about dignity, sustainability, and human connection. Our volunteers go to slum areas with bundles of carefully collected and upcycled clothes, ensuring that those in need receive not just garments but a sense of being seen and valued. For many, access to proper clothing is rare, and these donations bring warmth and renewed confidence. This initiative also plays a crucial role in environmental sustainability.

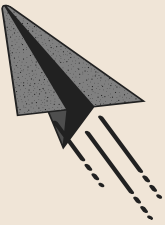

By collecting clothes from those who no longer need them, upcycling, & redistributing them, we reduce waste & combat overconsumption. Each piece given is a step toward a more responsible future. Through this, Snehdhara creates ripples of change-where care for the planet meets compassion for people.

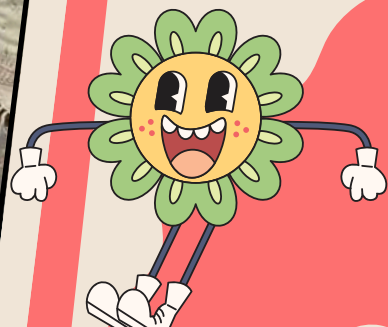

EMPOWERING CREATIVITY

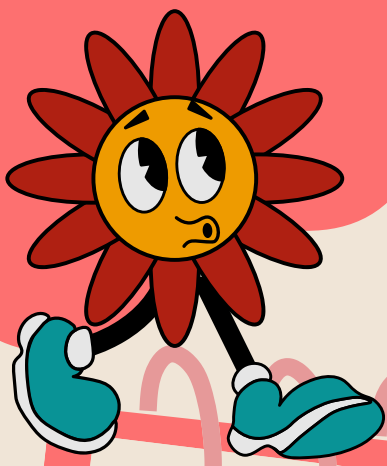

Snehdhara's Drawing Book Set Distribution Drive in government schools goes beyond providing supplies—it nurtures creativity and self-expression. Many underserved children lack access to basic art materials, limiting their imagination. By distributing drawing books and sets, our volunteers bring joy and opportunity, encouraging students to dream and create. More than just materials, the drive builds confidence and engagement.

Seeing their creativity valued boosts self-esteem and inspires them to keep creating. Our volunteers interact with students, appreciating their work and encouraging their artistic potential. Through these efforts, Snehdhara supports holistic education, ensuring every child gets a chance to explore their talents.

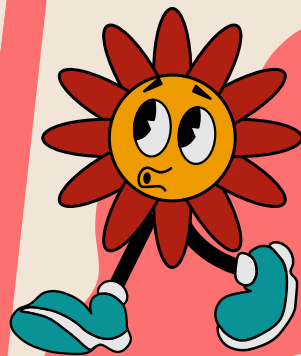

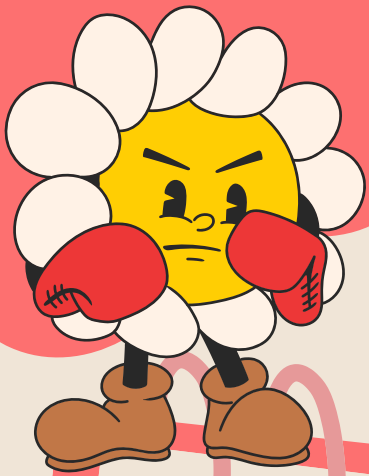

SHARING WARMTH WITH SWEATER DISTRIBUTION

Snehdhara's Sweater Distribution Drive in government schools helps children stay warm during winter, ensuring cold weather doesn't hinder their education. Many students lack proper winter clothing, making it hard to focus in class. Providing warm sweaters keeps them comfortable and healthy. Beyond warmth, this initiative fosters care and support.

Receiving sweaters boosts children's confidence and motivation, reminding them they are valued. Our volunteers distribute sweaters while engaging with students, reinforcing that they are not alone. Through this drive, Snehdhara continues its mission to support both well-being and education.

#UNSTOPPABLE CONFIDENCE

Snehdhara's Self-Defence Training Campaign empowers young girls in government schools with essential skills to protect themselves. Conducted by certified trainers, each school receives five intensive sessions designed to instill confidence, awareness, and the ability to react in challenging situations. The first location is at Govt. Sr. Secondary School, Gwal Pahari. In a world where safety is a growing concern, self-defence is not just an option but a necessity. By equipping girls with practical skills, we help them feel more secure in their daily lives.

More than just training, this initiative fosters **#UnstoppableConfidence**, reinforcing that every girl deserves to feel strong, independent, and fearless. Through this campaign, Snehdhara is shaping a safer, more empowered future for young girls.
